JEFF STONE

STATE REPRESENTATIVE
82ND DISTRICT

November 21, 2001

Senator Roger Breske, Chairman
Senate Insurance, Tourism and Transportation Committee
18 South – State Capitol
Madison, WI 53708
INTER-D

Dear Senator Breske,

I am writing to respectfully request a public hearing and executive session on Assembly Bill 374 in the Senate Committee on Insurance, Tourism and Transportation.

AB 374 designates vehicles used for the transport of organs for human transplantation authorized emergency vehicles. These vehicles may also be used to transport medical personnel and/or medical devices or equipment for the immediate purpose of performing human organ harvesting or transplantation. As authorized emergency vehicles, those vehicles may operate flashing red and/or white lights as well as sirens while performing these emergency services.

This legislation is necessary because although currently designated emergency vehicles may transport organs for human transplantation, medical personnel and medical devices and equipment, the need for currently designated emergency vehicles such as ambulances and law enforcement vehicles may frequently exceed the availability of those same vehicles. Additionally, Illinois has authorized organ transport vehicles to operate as emergency vehicles. It is of utmost importance that organs in transport for transplantation and transplant medical teams and equipment be afforded every opportunity to reach their destination quickly.

It is my belief that Assembly Bill 374 should be considered as a national model for legislation relating to organ transport vehicles. Wisconsin's citizens are already leaders in recognizing the importance of organ donation. Enactment of AB 374 would further strengthen our state's commitment to successful organ transplantation.

I thank you for your co-sponsorship of this legislation and urge you to take prompt action on AB 374. Please feel free to contact me with any questions you may have.

Sincerely,

Jeff Stone
State Representative
82nd Assembly District
